## Note:

All personal gear should be packed in one back pack or duffle bag, depending on the type of trip. A fanny pack is nice for quick access to some items.

## NOTES:

1. Be prepared for changing weather: hot, cool, wet, etc.
2. Think rain! Be prepared for rain at all times. Keep your tent and personal gear secured for rain at any time. Take a supply of plastic trash bags to put your sleeping bag and backpack in for protection from water.
3. Mark your name permanently on EVERYTHING! All Scouts bring the same gear and it all looks alike.
4. Tents and personal gear must be ready for inspection at all times. No one will pick up for you if you're a slob.
5. At least 2 glasses of water per hour are must in hot weather.
6. Soda and candy are not permitted on trips. It is a waste of money, space and nutrition.
7. We are camping, so no cell phones, radios, mp3 players, Game Boys, fireworks, etc. are permitted.
